Accelerated Care Plus Launches Immersive Cycling Technology Designed To Optimize Patient Outcomes Through Group Therapy

2024-10-17

RENO, Nev. – October 17, 2024 – Accelerated Care Plus (ACP), a Hanger, Inc. company and the nation's leading provider in rehabilitation solutions, announced today the ACP line of OmniCycle therapeutic bikes is expanding with the launch of the new OmniTour™ Virtual Exercise Experience. The immersive cycling technology empowers skilled nursing operators to efficiently deliver impactful therapeutic care, while fostering valuable connection and motivation among patients through group therapy – which has been [proven](#) to boost patient satisfaction and self-care performance.

The virtual cycling software seamlessly connects via Bluetooth with OmniCycle® Connect devices through OmniTour's 55-inch, high-definition portable screen. Participants can engage in individual, concurrent or group virtual rides with up to four cycles. From world-renowned cities to notable national parks, OmniTour's video collection includes more than 100 route offerings from across the globe, along with a nostalgic photography archive with content ranging from the 1930s to today.

"OmniTour empowers skilled nursing operators to take a holistic approach to patient care by improving outcomes while also meeting facility goals," shared ACP Vice President and General Manager Amy Hobbs. "This new technology not only activates group therapy options within a facility – it has the potential to foster socialization and motivation among patients."
