

Hanger Clinic Enters Clinical Services Agreement for Orthotic and Prosthetic Care with Premier, Inc.

AUSTIN, TX– June 24, 2025–Hanger Clinic, the largest provider of orthotic and prosthetic (O&P) patient care, with over 900 clinics across the United States, has been awarded a national group purchasing agreement for O&P care with Premier, Inc. Effective May 1, 2025, the new agreement allows Premier members, at their discretion, to take advantage of pricing and terms pre-negotiated by Premier for O&P care with Hanger clinics across the country.

Premier is a leading technology-driven healthcare improvement company, providing solutions to two-thirds of all healthcare providers in the U.S. Playing a critical role in the rapidly evolving healthcare industry, Premier unites providers, suppliers, payers and policymakers to make healthcare better with national scale, smarter with actionable intelligence and faster with novel technologies. With integrated data and analytics, collaboratives, supply chain solutions, consulting and other services, Premier enables better care and outcomes at a lower cost.

Under this agreement, Premier members can access Hanger Clinic's comprehensive services to support care delivery for patients requiring orthotic and prosthetic interventions, including orthopedic trauma, spinal trauma, stroke rehabilitation, and amputee care. Hanger Clinic supports health systems driving towards a higher value of care by helping identify solutions that will improve patient outcomes and reduce length of hospital stays and potential readmissions.

One example of the post-amputation patient care that Hanger Clinic provides to healthcare systems is the [Ampushield®](#), which has been clinically proven to optimize patient outcomes and reduce the length of acute hospital stays through contracture prevention. The Ampushield® also provides better wound protection, results in faster healing times, provides earlier ambulation, and reduces the risk of requiring a revision surgery due to falls.

"We are excited to work with Premier's members to deliver the highest standard of orthotic and prosthetic patient care," said Michael Oros, President of Hanger Clinic. "This agreement will expand access to essential care for individuals who need customized prosthetic and orthotic care solutions to meet their unique needs. By partnering with health care providers and medical centers, we can significantly improve clinical outcomes and empower patients to live life to the fullest."

About Hanger Clinic – Hanger Clinic provides comprehensive, outcomes-based orthotic and prosthetic solutions at more than 925 patient care locations nationwide, and is part of the Hanger, Inc. ecosystem of diversified companies. Rooted in clinical research, excellence and innovation, its 1,700 board-certified clinicians provide customized solutions for all ages designed to increase the mobility and function of each person they have the honor of serving.
